12,460

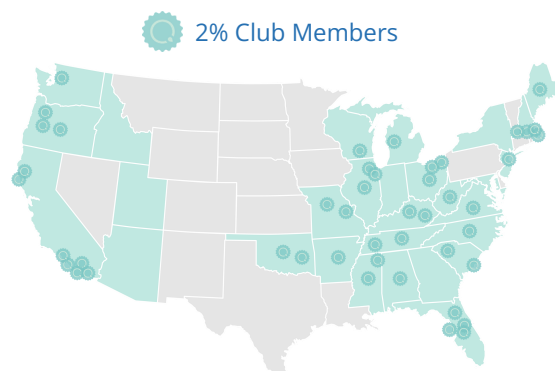

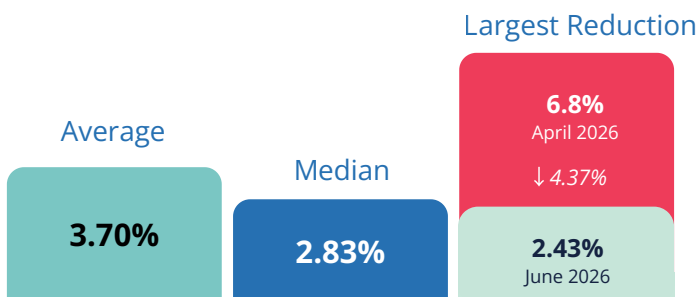

sessions on the QuicksortRx platform in Q2 2026.

18

minutes average session duration.

WAC Premium Performance

QuicksortRx achieved an average WAC Premium of 3.70% in Q2 2026. Our most-improved customer reduced their WAC Premium by 4.37%, earning membership into The 2% Club.

The 2% Club now has 46 members. These customers maintain less than a 3% WAC Premium over a rolling 90-day average for 30 consecutive days. [Learn more here.](#)

Latest Product Updates

Tasks

Tasks and followup are now built directly into the QuicksortRx platform with a custom workflow for tracking and managing to-dos. By moving task management into the app, teams can streamline collaboration, improve accountability, and keep all of their work in one place.

Product Class Shortages

Our market-leading Drug Shortage features have a new spin! Product Class Shortages view highlights drug classes experiencing shortage activity and shows how they impact your selected pharmacy group. Quickly identify shortages as they emerge using order fulfillment statistics and ASHP's shortage details to prioritize purchasing decisions and respond more effectively to supply disruptions.

340B Attic

Identify purchases over your 340B ceiling with the new 340B Attic. This update helps pharmacy teams quickly surface overcharges, recover potential savings, and strengthen 340B purchasing oversight for systems struggling with manufacturer 340b price loads.

NDC Details Page Redesign

We've redesigned the NDC Details page to reduce clutter and improve discoverability throughout. This updated layout makes it easier to find key purchasing information quickly, helping users work more efficiently and make informed decisions faster.
